

SOLIDARITY

Do you know why Rose (Rose Dewitt Bukaret- Kate Winslet) at movie „Titanic“ didn't jump off of the ship?

Why Nicholas James Vujicic is man, called „A miracle of God“?

And what's common "Solidarity" with those things? I will try to explain those unusual cases from my point of view and show that all things in our strange world are connected.

Rose Dewitt Bukaret was despaired and planned to jump off the ship deck. Jack Dawson didn't want to allow it, so he told her: "If you jump, I jump!" And guess what! She didn't jump off. You will ask why? I have the same question after I had seen the movie. Now I have understood the answer- definitely it was love but not only. You know that for all things in our life have some connection, whether it's love, life, relationships or people. And this common denominator is called Solidarity. Love is Solidarity, the same as Solidarity is love.

Love can occur between two or more individuals (mother/child, woman/man, people/animal etc.). Look at the relationship between a mother and a child. The mother loves the child unconditionally and it can not be measured at all. The meaning of love will change with each different relationship and depends more on its concept of depth, versatility and complexity. Be together, share your joy and sorrow, understand each other, provide space to each other, but always be there for each others need- it is love and love make common cause (Solidarity).

Some of us are happy in love, but someone needs to get on with hereditary disease all life long. Life impose a penalty on someone, to show that right this person is enough strong to fight against it. This will be the answer to question- *"Why Nicholas James Vujicic is man, called "A miracle of God"*. He was born without legs and arms. He is limbless, missing both arms at shoulder level, as well as legless. His feet are toeless except for two toes on one foot. Why I have chosen to speak about him? Because he is the greatest example of contented, happy people who love life and the man who creates Solidarity.

He has a purpose, a vision and a plan for better, united world. Today people gather strength from Nick and tap into their own worth, as he guides them through an insightful method of achieving greatness, regardless of situation. He is teaching Solidarity between people. He has made inspirational program where people can learn how to overcome adversity, persevere under any circumstance, and attain the height of their ambition. We all sometimes complaining of our lives, living conditions, state of health, bad days disasters. But what is unrequited love comparing with live without thumbs? It's just amazing how strong can be people with such syndrome, to smile, to write, to work with computer, to swim, to ride with horse, to surf and to encourage others. The God send him with specific aim- to help people, uniting them. Some people say that after watching his videos, they feel blessed. No wonder because he is called "A miracle of God".

People can't live without such great believe as Nicholas. Some of them don't know what are they live or fight for. Here we see two great examples of happy life. One is love and the second is to be in harmony with yourself. I would advise to get know better Nicholas and his great job- to encourage people.

We should start with ourselves to improve, to unite, to understand each other, so we can say: "We are as one, and we provide Solidarity!"
