

SOLIDARITY PROJECT

Rehabilitation Center “The Lighthouse” for homeless children

WHO: The following qualified professionals: pediatricians, social workers, psychologists, psychiatrists, teachers, representatives of the Orphan’s Court, homeless children and as well as everyone who worry about the problems of modern society – volunteers.

WHERE: Project partner is Greece, but later I would like to implement this project in several countries, directly to build the networks of the project and then after a while to become an association for the children protection.

WHAT: The general task is to recover the moral and physical balance of the children. The first specific task is to provide a social assistance to the children: 1) to give first aid for children; 2) to provide food and clothing for children; 3) to provide accommodation for children. The second specific task is children’s full integration into society: 1) to organize consultations with psychologists and psychiatrists for children with serious psychological trauma; 2) to prepare individual or group consultations on the topic of drug abuse, smoking, suicide etc.; 3) to organize summer camps to learn languages, to meet new friends; 4) to provide a chance to obtain primary or special education for children; 5) to organize meetings where rehabilitated children would help other homeless children telling them their stories how they survived and coped with their problems. The third specific task is to increase the potential of the child: 1) to organize special measures, celebrations, contests, cultural events and take a participation in them, for example, pop iela, school theater, orchestra, singing etc.; 2) to organize a social work such as cleaning some territories, planting trees (to make a contribution to a society); 3) to make traditions, such as to have meetings on Fridays evenings, tea hours, to make diaries and etc.;

WHY: Firstly, nowadays there are a lot of problems of modern society such as drugs, suicide, crime, violence, weapon, alcohol, wars and conflicts. This project will not only reflect our solidarity, but it gives a chance to people express solidarity to others. Secondly, every child has the right to love and happiness and sometimes it is important to know that you are needed, you are not alone in this big and cruel world and there are people who may help to solve any problem as well as support you. Thirdly, the lack of solidarity in our world has led most people to forget not only their responsibility towards other people, but also to forget their humanness.

WHEN: The time frame of my project is one year – 2012.

HOW: The project will be carried out by the implementation of the following activities:

- to give first aid for children;
- to provide food and clothing for children;
- to provide accommodation for children;

- to organize consultations with psychologists and psychiatrists for children with serious psychological trauma;
- to organize and attend special measures, celebrations, contests, cultural events and take participation, for example, pop iela, school theater, orchestra, singing etc.
- to provide a chance to obtain primary or special education for children;
- to prepare individual or group consultations on the topic of drug abuse, smoking, suicide etc.;
- to organize summer camps to learn languages, to meet new friends;
- to organize a social work such as cleaning some territories, planting trees;
- to make traditions, such as to have meetings on Fridays evenings, tea hours, to make diaries etc.;
- to organize meetings where rehabilitated children would help other homeless children telling them their stories how they survived and coped with their problems.

Data of project

Objectives:

- to recover the moral and physical balance of the children;
- to provide a social assistance to the children;
