

The development of young people's artistic abilities. Creating the interior accessories. (Textile painting, application composition, mosaics, etc.)

1. The project is implemented by Rezekne Art school group whose specialty is the manual training and textile design. With the help of Greek art institutions and participation we can raise the amount of partners required for the project. The project may be useful for the future professionals in this field (designers, dressmakers, handicraft masters). In addition, the project is being developed not only for training purposes, but also as entertainment and a way to explore the richness and diversity between the two countries.
2. The project is implemented in Greece, the venue can be: the beach, where nature itself inspires creative work of the project participants; urban streets with their fantastic inspiring landscapes
3. The main tasks of the project participants is the two cultures presentation to the foreigners, the national trade development and experience exchanging. Creation of one common artistic work using the cultural elements of both countries. At the end of the project there is held the participants` competition, which is devoted to the best and more creative artwork; then takes place the award ceremony.
4. The project participants are getting to know the other cultures and people, expand their abilities and the future potential by using new techniques, experiences, show fresh, lively, innovative art works. During the project, participants will be able to find people who feel the same way, and may also organize international cooperation in this field.
5. Project duration is one week. The most suitable time of the project implementation period could be late summer (e.g. August), when students have time and opportunity to travel abroad and to enjoy the Greek nature and wonderful time.
6. - Opening of the event, participants' mutual acquaintance and their presentation (photographs, art school students` work presentations, etc.)
 - Introduction to Greece, its art institutions and their work methods, materials and access to the creative process.
 - Joint organization of work, workshop. Each participant works of art according to the assigned topic, using the techniques and materials that he (she) seems the most appropriate and available.
 - Is announced the participants contest, and the winners of competition will be announced on the last day of project.
 - End of the project participants form a common artwork. After all the individual works and joint work are transferred to the Greek art school as a gift.
