

Call for Partners

European project - Strategic partnerships - Erasmus +

Alter Ego : Dance and video project

Alter Ego is a new dance and video project based on the theme of otherness. The project elaborates itself in cooperation with partners and interlocutors from contrasting territories, on the European scale.

Overcoming the language barrier across territories with varied identities, Alter Ego borrows a common parlance: the body and the image of the body in movement as meeting interface.

Alter Ego suggests to seize this diversity by means of Videomaton: With a mobile device - a white booth equipped with a camera where each and everyone can record a one minute snapshot dance performance - the company travels to capture the moving portraits. These danced portraits, stage of reflection on the theme of otherness, will be the raw material of a creative and collective work.

We are currently looking for partners (Cultural institutions, art centers, centers of choreography, schools...).

Please contact us for more information.
